FISHING RODS CATALOGUE 2017

Why

AYASHI RODS?

Japanese quality. Traditionally high

- Ultralight modern SiC & Alconite (KL-, KR-concept) guide rings from Fuji Kogyo Co., Ltd. with improved line flow and decreased line twist.
- Reel seats: Fuji VSS & Ayashi.
- High-modulus graphite blanks from Mitsubishi Inc. & Toray Industries Inc., Co.

Highly ergonomic handles

- Very practical lightweight and ideally balanced handles.
- Durable materials (E.V.A., Soft Touch, cork).
- Split-grip solution.

Wide product range

- Dozens of spinning and casting models (Rexzus, Sagami, Kego, Yura), fly fishing rods (Kego Fly), feeder and picker series (Carp Terra and Nagara) and Bolgonese rods (Panaro).
- Great variety of tests and sizes.

Practical storage cases

- Durable and reliable materials used (Polyester 300 den).
- Convenient storage pockets for rod parts and replaceable quiver tips.
- Cordura® tubes for storage and transportation.

Original design

- Aircraft-grade aluminum (Al-Mg) used in the handles' elements.
- Original color solutions for each Ayashi series.

Innovative technologies

- Angle Shift Concept® (special blank wrapping with shifted angle).
- Power Transfer System® (advanced load distribution).

Ayashi. The brand of champions

- Ayashi rods are highly estimated by professional fishermen and experts.
- The tool of spinning world championship and Pro Anglers League winners.

Customer-friendly price range

- From most budget-friendly models (price equals to your car's refueling).
- To premium quality spinning rods at yet affordable prices.

Good bargain that brings joy

- High level of customer satisfaction.
- Positive feedback and praises on thematic forums, social media and video blogs.

A close-up, low-angle shot of an Ayashi Carp Terra fishing rod resting inside its black carrying case. The rod is positioned diagonally across the frame. It features a black main body with a prominent red section near the handle that has the 'ayashi' logo in white. The words 'Carp Terra' are printed in a large, white, stylized font on the black sections of the rod. An orange fluorescent light strip is visible along the top edge of the case, illuminating the scene. The background is dark, emphasizing the rod and its case.

ayashi

Carp Terra

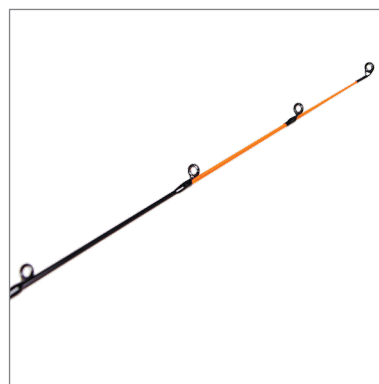

AYASHI CARP TERRA FEEDER RODS

- A good range of pro quality feeder-type fishing rods designed for competitions.
- Ayashi Carp Terra series has been developed for super far casting and consistent extra powerful playing with large trophies.
