Introducing excellent performance series of Ayashi fishing lines designed and produced by Opus Company. The advanced technologies, excellent working performance and a wide range of sizes and strengths make Ayashi fishing lines a successful competitor to the industry leaders.

**Ayashi EVO X8** and **X4** series feature the ideal balance of diameter, softness, smoothness index and strength.

**Ayashi PROBRAID** series is a new generation of PE braided lines characterized by high-level consumer properties while retaining the optimal price. The series includes most popular braiding patterns, colors and diameters.

**Ayashi BASELINE** is a high quality well-calibrated monofilament fishing line series, with low memory effect, great anti-abrasive properties and damage resistance.

**AYASHI PROFLURO** series' distinctive features are durability, comfortable lengths and very low in-water visibility index.

# EVO X8

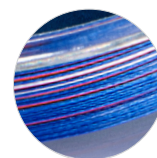

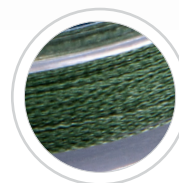

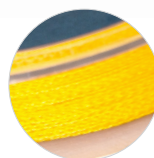

- A premium quality eight-stranded PE braided line.
- Popular colors: bright yellow (for fishing in any weather conditions, the color allowing to control the retrieving and casting of lures); army green (to pull out a cautious fish with a feeder or spinning rod); multicolor with color change every 30 feet, and a three-feet white shading (an essential tool for jigging and trolling fishing).
- The high quality of braiding allows the angler to monitor the play of lure at every stage of retrieving.

series	Ayashi EVOX8
type	PE braided line
length	150 m
colors	<b>yellow</b> , green, multicolor

size (Japan)	#0.6	#0.8	#1.0	#1.2	#1.5	#2.0

# PROBRAID

also available in a new style packaging

- A premium quality four-stranded high-modulus PE braided line.
- Medium smoothness index.
- Antiabrasive coating of braids.
- Wide range of sizes and strengths.
- Popular colors (orange, blue, yellow and army green).
- Universal application; an essential tool for jig fishing.
- High reliability and excellent sensitivity.

series	Ayashi PROBRAID									
type	PE braided line									
length	100-135 m

# BASELINE

- High quality well-calibrated monofilament fishing line.
- Maximum diameter precision (down to micron).
- Very low memory effect.
- Very accurate maximum load matching.
- Very smooth line surface.
- High anti-abrasive properties and damage resistance.
- Wide range of diameters.
- Completely transparent in water.
- Recommended for all types of fishing.
- Excellent sustainability and great sensitivity.

series	Ayashi BASELINE
type	monofilament line
length	50 m & 150 m
color	transparent

diameter (mm)	0.105	0.128	0.148	0.165	0.181	0.203	0.234	0.261	0.286	0.300	0.331	0.370	0.405

# PROFLUORO

- High quality well-calibrated fluorocarbon fishing line.
- Maximum diameter precision (down to micron).
- Very low memory effect.
- Very accurate maximum load matching.
- High anti-abrasive properties and damage resistance.
- Transparent in water.
- Recommended for practically all types of fishing.
- Excellent sustainability and great sensitivity.
